CLINICAL PRODUCTIVITY REPORT OVERVIEW

EXPLANATION OF FY CLINICAL ACTIVITY REPORT

- **This is designed to report your inpatient and outpatient services based on date-of-service. The report provides the following information:**
 - Actual Work RVUs this year to date and a comparison to last year's Work RVUs through the same time period pro-rated to match your current Clinical FTE
 - Actual Units of Service – each unit of service = a single CPT code
 - Your current Clinical FTE, broken into in-patient and out-patients, as well as your pro-rated Clinical FTE for the year.
 - Comparison of your Work RVUs to the threshold needed to receive an incentive payment. This is only applicable if your pro-rated CFTE is greater 0.50. This comparison is adjusted to match your total CFTE level for the year and pro-rated for how far we are through the year.
 - Also provided are the Work RVUs broken out per service type and your averages per Unit of Service
